EMPLOYER NEWS

Hello from Kate on the Employer and Alumni Relations team! This week we spoke to a great startup, Button. They are looking to recruit students for their Software Engineering Internship Program, posted in LionSHARE (Job ID: 210126). There are many Columbia alumni at Button, and they are excited to have Columbia students as interns as well. The internship program provides a mentor relationship for the interns and allows the interns to build and design their own projects. If you are interested in a start-up culture work environment that utilizes your computer science knowledge, this is an exciting opportunity!

CAREER TIP OF THE WEEK

Did you attend CCE's Startup Career Fair on Friday? Make plans to follow up directly with the employers that you met! If you want to submit applications to any of these companies, consider having your resume and cover letter reviewed by a CCE counselor.

CCE EVENTS AND PROGRAMS

**Career Exploration for PhDs - Friday, Apr. 15**
This workshop is designed to help PhD students from all disciplines prepare for and execute a non-academic job search. Discussion will focus briefly on the nuts and bolts of the job search and will also explore the myriad career options available to you - the process by which you identify 'best fit' career options, survey resources to examine those options, and locate opportunities. The workshop is interactive where you reflect on your interests, values, skills and personality traits, connect these to careers, and complete an Individual Development Plan.
