CCE Employer News

Hello! This is Leslie from the Employer & Alumni Relations team at CCE. We recently reached out and spoke with a technical recruiter at Mercedes Benz R&D, one of 2017 Vault’s Most Prestigious Internships. Good news - their internship positions were just posted on their careers site! Mercedes Benz R&D hires interns at the masters and PhD level, with roles centered on project areas such as powertrain, telematics, UX design, software engineering and more! Most of their positions are based in their Sunnyvale, CA office with a few opportunities in Michigan for the summer. They also offer internships to recent graduates as well.
