1. Ability to work in a team structure
2. Ability to make decisions and solve problems
3. Ability to verbally communicate with persons inside and outside the organization
4. Ability to plan, organize, and prioritize work
5. Ability to obtain and process information
6. Ability to analyze quantitative data
7. Technical knowledge related to the job
8. Proficiency with computer software programs
9. Ability to create and/or edit written reports
10. Ability to sell or influence others

*Source: National Association of Colleges and Employers, 2015 Job Outlook*

Your major can definitely demonstrate relevant coursework and knowledge to a prospective employer, but your studies aren’t the only aspect of your experience that employers are evaluating. They select people who they believe can do the job (have the right skills), want the job (have demonstrated an interest in the field) and are a personality fit for the team and organization.

**What value do Middle Eastern, South Asian, and African Studies (MESAAS) majors bring?**

According to the Middle Eastern, South Asian, and African Studies department at Columbia, the MESAAS curriculum helps you to develop the following skills:

- Language expertise: ability to study a cultural field through its own texts
- Analytical skills: ability to think and write about complex cultural formations
- Research skills
- Ability to think critically
- Verbal and written communication skills
- Collaboration and teamwork skills

**What if I’m an international student?**

For international students at Columbia under student visas, selecting your major can play a significant role if you plan to work in the US after completion of your degree. Optional Practical Training is a work authorization that allows an international student to work in a job directly related to the student’s major area of study either before or after degree completion. Employer sponsored H1B Visas also have similar strict requirements. Students with more questions about this should visit the International Student & Scholars Office (ISSO) and view CCE’s International Students webpage at [careereducation.columbia.edu/students/International-Students](#).
