Majoring in... **Earth and Environmental Engineering**?

### Where did last year's grads go?

- **75%** Concrete Plans (Employed, Grad School)
- **50%** Employed
- **25%** Graduate School
- **25%** Still Searching

*Data from the 2017 Graduating Student Survey: 80% response rate*

### What are recent alumni doing?

#### **Employment**

- Langan Engineering & Environmental Services
- Ambient
- ARCADIS
- BNY Mellon
- Boeing
- Goldman Sachs
- California Water Boards
- Oracle
- CitiGroup
- The Alberleen Group
- AMC Engineering, PLLC
- McAdams

#### **Graduate School**

- Columbia University
- Stanford University
- Penn State
- Penn University

**My Columbia Earth & Environmental Engineering degree prepares me to...**

- Conduct measurement and control of material flows through the environment
- Assess environmental impact of past, present, and future industrial activities
- Analyze and design processes for remediation, recycling, and disposal of used materials
- Design and conduct experiments as well as analyze and interpret data
- Design a system, component, or process to meet desired needs within economic, environmental, social, political, ethical, health, and safety, manufacturability, and sustainability restraints
- Function effectively on multidisciplinary teams
- Identify, formulate and solve engineering problems
- Communicate effectively
