Majoring in... Biochemistry?

Where did last year's grads go?

- 88% Employed
- 47% Grad School
- 41% Still Searching, Taking Time Off
- 12% Concrete Plans (Employed, Grad School)

*Data from the 2016 Graduating Student Survey: 65.4% response rate

As a Columbia Biochemistry major, I can...

- Approach biochemical issues from a multidisciplinary perspective
- Perceive patterns and structures to formulate hypotheses
- Investigate hypotheses using scientific theory, research methods, experimental design
- Analyze, evaluate, interpret data
- Organize and visualize experimental results
- Interpret and critique scientific texts, presentations, and primary literature
- Clearly communicate complex scientific results and concepts orally and in writing
- Work methodically and accurately
- Collaborate on team projects
- Develop creative solutions to complex problems

What are recent alumni doing?

EMPLOYMENT

- NIH
- National Institutes of Health
- Massachusetts General Hospital
- NYU
- Columbia University Medical Center
- The Rockefeller University
- Weill Cornell Medicine
- Goldman Sachs
- Hudson Heights Pediatrics
- The Boston Consulting Group
- ims consulting group

GRAD SCHOOL

- University of Cambridge
- SUNY Downstate Medical Center
- UMass University of Massachusetts Medical School
- Columbia University
- Washington University in St. Louis
- Yale University
- The Scripps Research Institute
- Harvard Medical School
