Concrete Plans (Employed, Grad School)

*Data from the 2016 Graduating Student Survey: 60% response rate

As a Columbia Biological Sciences major, I can...

- Approach biological issues from a multidisciplinary perspective
- Develop and investigate hypotheses using scientific theory, research methods, and experimental design
- Analyze, evaluate, interpret data
- Organize and visualize experimental results
- Access and interpret scientific literature
- Clearly communicate complex scientific results and concepts orally and in writing
- Work methodically and accurately
- Collaborate on team projects
- Develop creative solutions to complex problems
