Majoring in... Computer Science?

Where did last year's grads go?

- 94% Employed
- 81% Grad School, Fellowship
- 13% Still Searching, Taking Time Off
- 6% Concrete Plans (Employed, Grad School, Fellowship)

*Data from the 2016 Graduating Student Survey: 69% response rate

As a Columbia Computer Science major, I can...

- Design, test, and implement innovative ideas
- Solve unfamiliar technical problems in creative ways
- Collaborate with a multidisciplinary team
- Evaluate engineering problems from multiple perspectives, within a broader social context
- Think across disciplines, in and beyond engineering
- Analyze, organize, and interpret complex data
- Command an in-depth, grad-level understanding of an area of Computer Science
- Write neat, simple, and modular code to given specifications
- Use algorithmic techniques for solving computational problems
- Communicate technical concepts to non-technical people

What are alumni doing?

**Employment**

- E*TRADE
- Amazon
- Major League Gaming
- Intel
- Google
- Rent the Runway
- Accenture
- Pinterest
- Stripe
- Goldman Sachs
- Microsoft
- IBM
- TuneSPEAK
- American Express
- Grubhub

**Grad School**

- University of Massachusetts Medical School
- UC Berkeley
- UC San Diego
- Columbia University
- Carnegie Mellon University
- Cornell University
- JACOBS SCHOOL OF ENGINEERING
- Massachusetts Institute of Technology
- Yale
- Georgia Institute of Technology
