Majoring in... **Physics?**

**What are recent alumni doing?**

**Employment**

- American Geophysical Union (AGU)
- STScI Space Telescope Science Institute
- Columbia University
- J.P. Morgan
- Bridgewater
- OnDeck
- ZLab Columbia University
- DSO National Laboratory
- Booz Allen Hamilton (strategy and technology consultants)

**Grad School**

- Yale University
- Stanford University
- Berkeley University of California
- Princeton University
- University of Michigan
- Caltech
- Harvard University

**As a Columbia Physics major, I can...**

- Identify patterns and structures to formulate hypotheses
- Design and conduct experiments to test hypotheses
- Analyze, evaluate, and interpret quantitative data
- Organize and visualize experimental results
- Apply mathematical and modeling skills
- Develop creative solutions to complex problems
- Clearly communicate scientific concepts and results orally and in writing, to different audiences
- Work methodically and accurately, individually or in a team
- Interpret and critique scientific and technical texts, presentations, and primary literature
- Approach issues in physics from a multidisciplinary perspective
