Majoring in... **Chemistry**?

What are recent alumni doing?

**EMPLOYMENT**

Sullivan & Cromwell LLP
Memorial Sloan Kettering Cancer Center
NYC Department of Education
Campbell Alliance
Campbell Alliance

**GRAD SCHOOL**

Johns Hopkins Bloomberg School of Public Health
NYU
The University of North Carolina at Chapel Hill
Rice University
Harvard University
MIT
Massachusetts Institute of Technology
Carnegie Mellon University
University of Wisconsin-Madison

**My Columbia Chemistry degree prepares me to...**

- Develop knowledge and understanding in core areas of chemistry: analytical, biological, inorganic, organic, and physical chemistry
- Perceive patterns and structures to formulate hypotheses
- Investigate hypotheses using scientific theory, research methods, and experimental design
- Analyze, evaluate, and interpret experimental data
- Interpret and critique scientific texts, presentations, and primary literature
- Clearly communicate complex scientific results and concepts orally and in writing
- Collaborate on team projects
- Organize and visualize experimental results
- Implement safe and ethical research practices
