

Majoring in... **Psychology**?

Where did last year's grads go?

My Columbia Psychology degree prepares me to...

Design experiments and conduct research to test hypotheses

Interpret measurements using statistical analyses

Evaluate, organize, and visualize quantitative data

Approach problems scientifically

Analyze and evaluate arguments, findings, and claims about psychological phenomena

Act ethically in the science and practice of psychology

Apply psychological concepts, theories, and research findings to real-world problems

Clearly communicate theories, hypotheses, methods, and findings orally and in writing

Document and cite sources

Reflect on your Columbia experience: bit.ly/UsingMyDegree
