My Columbia Sociology degree prepares me to...

Think critically and holistically about social structures and complex social problems

Analyze issues related to power and authority, poverty and discrimination, and social change

Apply knowledge of sociological theory and history to current issues

Define and investigate research questions

Analyze survey or archival data with basic statistical methods

Describe and evaluate the strengths and limits of social science research

Describe and draw inferences from quantitative data

Synthesize quantitative and qualitative information

Report on research findings orally and in writing

Document and cite sources
