

# Majoring in... **Chemical Engineering** ?

## Where did last year's grads go?

## As a Columbia Chemical Engineering major, I can...

Quickly learn and adapt to advances in technology

Demonstrate an understanding of professional and ethical responsibility

Function as a member of a multi-disciplinary team

Design a system, component, structure, or process to meet desired needs

Analyze and interpret data

Identify, formulate, and solve engineering problems using modern tools, techniques, and skills

Adapt processes to function within economic, environmental, political, ethical, health and safety, manufacturing, and sustainability constraints

Communicate effectively

Demonstrate an understanding of the impact of problem solving in a global and societal context

## What are alumni doing?

### EMPLOYMENT

### GRAD SCHOOL
